

Looking forward to attending my first Timmins High Reunion! I left Timmins to attend Ryerson - then was hired by the Hudson Bay Company in Edmonton where I worked for 3 years. I returned to University of Alberta in Edmonton and completed a Bachelor of Commerce and then an MBA.

My entire career was in Human Resources management at all levels. While I am now retired, I am still working with Athabasca University doing two courses for them. Athabasca University is a distance education university so my students are located across Canada. I help them with their assignments and mark their assignments and exams. I work out of my home and all contact occurs by email or telephone conversation. All assignments and exams are received through the University on-line system and then returned the same way.

Just spent 4 days in a peer group reunion in North Bay with Lucio Bozzer, Ed Casonato and Dennis Spadafore. I have a son at the University of Alberta doing an MBA - has completed his first year.

Senior Football Team 1963
