

Position Most Recently Held:

Structural Manager, ISL Engineering

It has been many years since we all left Timmins High and we have all gone different ways. I may not live in Timmins any longer but it is still home to me with many fond memories. I still check the Daily Press online to see what events that are happening in Timmins. There are many great memories. I will recount a few to stoke the memory.

Our time in high school was the time when the varsity football program was being removed from the school, mid 1970's. This did not stop us from playing tackle football however. Our grade would challenge the upper grade in a "friendly" game of tackle football at the Hollinger Park. We held some practices under the lights, i.e. car lights prior to our challenge. It brought us all together as a group with a purpose. It was fun, rough but most of all enjoyable providing excellent memories.

We were the last graduating class of the old Timmins High, 1979 - 1980. Everyone would remember dreading to go to the old Gym 108 meaning we had to do gymnastics. I also remember going to my locker, looking up and seeing a graduation photo from 1948 of my mother, Vivian Tremblay (maiden name Perreault). Our gift to the school that year was professional photos taken of the school. It would be nice to see this book again to rekindle memories especially since the old school no longer exists and is now a condominium.

The best memories of high school are the friends that we made, the teacher that we had. The antics that we all did. It will be very interesting to revisit with many of my friends and teachers at the reunion and talk about the old times and what all of us are doing now.

As Bob Hope would say, "Thanks for the memories."
