

Memories of TH&VS - Ah! I remember it well!

The teachers - Miss Anderson, the very strict English teacher, **Miss Wilson**, the happy French teacher, putting on her lipstick in front of the class, **Miss Gardini**, the long red-haired Latin gal from Italy, **Miss Bourne**, standing on a box trying to get our attention as we dissected frogs!!

Mr. Rose, the Principal and **Mr. Runnalls**, the Vice Principal, were two caring educators whom I admired. Mr. Runnalls even helped me after school with Grade 11 Math. It was my worst subject.

Miss Anderson

Mr. Jury, the Physics teacher, with his red hair and moustache, and **Mr. Greene**, the Chemistry teacher. These two men tried so hard to help me understand Physics and Chemistry. Sadly, I could never really get these two subjects! But I liked the teachers!

Loved the changing of classes and seeing everyone in the halls. I enjoyed the Balls and my Grade 12 Graduation night. Got in at 7am the following morning and sat on Mom's bed telling her about the fantastic time I had.

Miss Wilson

I love returning to Timmins and seeing family and old friends. I love shopping on Third Avenue and Pine Street. The cute shops are full of wonderful surprises and the service is the best I have had in any store in many cities.

In 1987, I was teaching in Germany and as it was Timmins' 75th anniversary, I had a Timmins party across the sea. I had come home that Christmas to see my family. So I bought a bunch of souvenirs. Then I invited my German friends over for a Timmins party. My favourite quote of the evening was "What's a Timmins?" I had brought 2 bottles of the special wine they had for the celebrations. I told the Germans that it was the best ice wine in Canada. Made from the Timmins vineyard. They loved it.

Decorating for a dance in Gym 119

Looking forward to this 2012 Homecoming. I enjoyed that Homecoming in 1980 so I'm really looking forward to this one. We'll all be 30 years older!
